

2025 Sponsorship Opportunities

For a child or an adult with a severe craniofacial difference, the greatest barrier to care isn't always the condition itself—it's the hundreds or thousands of miles between them and the specialized medical team they desperately need.

At FACES, we've spent 55 years building bridges across these impossible distances, ensuring that geography never stands between a person and their chance for life-saving treatment.

FACES: The National Craniofacial Association provides financial assistance to families for medically necessary travel to a specialized craniofacial center 100 miles or more from their home. FACES assists with transportation costs, lodging, and meals. FACES is committed to helping a family for as long as they need our assistance.

FACES program services include awareness and education campaigns to increase public understanding of craniofacial differences, providing current information and resources on craniofacial disorders, providers, and treatment, connecting families with craniofacial support networks, and **FACES Camp** for youth with craniofacial differences.

FACES is a 501(c)(3) nonprofit organization headquartered in Chattanooga, Tennessee since 1969 and is funded entirely through donations, sponsorships, grants, fundraising events, corporate sponsors, and community support.

Our Impact

Over the last 55 years, **FACES** has provided...
\$1.3 M+ in financial aid for travel to **10,000+ clients** and caregivers in **45 States** and helped **100,000+ individuals** receive program services.
